The Abbey School Accessibility Policy

General Statement

In keeping with our inclusive ethos, the Staff and Governors take their responsibility towards inclusion seriously. Inclusion is an ongoing process, which celebrates diversity and involves the identification and minimising of barriers to learning and participation that may be experienced by any student and the maximising of resources to reduce these barriers. This will be irrespective of age, ability, gender, ethnicity, language, faith, sexual orientation and social background or any other protected characteristics as defined under the Equality Act 2010.

Definition

A person has a disability if she/he has a physical or mental impairment that has substantial and long-term adverse effect on his/her ability to carry out normal day-to-day activities. Physical or mental impairments can include sensory impairments (such as those affecting sight and hearing) and learning difficulties. The definition also covers certain medical conditions when they have long-term and substantial effect on their everyday lives. The school is required to make reasonable adjustments in order to meet the needs of whole school community generally, not just those of particular individuals.

Aims

As an inclusive Academy that serves the Faversham Community, we are committed to equality of opportunity in every aspect of the life of all students, parents/carers, staff and governors. We are committed to challenging discrimination against any Individual or group, ensuring equality of access and preparing students for life in a diverse society. We will systematically assess, evaluate and regularly review the impact of our School accessibility plans on the life, attitudes and achievements of all groups and individuals in the school community. Awareness of their individual learning plan and improve this process. We will strive to increase access to the curriculum; the physical environment; the provision of information and to increase participation for students with disabilities when appropriate.

Objectives

- To increase the extent to which all students can participate in the School Curriculum.
- To produce and review alongside this policy an accessibility plan which is annexed to this policy for review and marked Annex 1.
- To improve the physical environment of the school to increase the extent to which all students can take advantage of the educational and extra-curricular activities.

- To provide information in different forms, as required, in order that it is in a format that best suits their needs.
- Make reasonable adjustments to the timetable and re-rooming to allow ground floor access.
- Provision of additional support whether physical or technological where necessary, for example to allow participation in school trips.
- To increase the extent to which employment can be offered to those with disabilities.
- To ensure that students who require special access arrangements or special consideration in examinations receive this, without compromising the assessment of the skills, knowledge, understanding or competence being measured.
- To ensure that access and suitability requirements are a prime consideration in respect of any new Build or substantial improvement projects across the school.
- Access Arrangements will help to reduce the effect of any disability or difficulty in examinations.
- Special Consideration is a post-assessment/post examination allowance to reflect temporary illness, injury or indisposition that occurred at the time of any exam/assessment.
- To enable all visitors to have equality of access to the ground floor of the school buildings and assistance with communication if required.
- To exploit the potential of ICT and specialist equipment to improve access.
- To make use of the authority's advisory and support services as required.
- To implement the Disability Discrimination Act (DDA 1995).
- To implement the SEND 2014 Code of Practice.

- To abide by the provision of the Equality Act 2010.
- To challenge attitudinal barriers to people with disabilities.
- To ensure that all within the school community support the RESPECT ethos and values of the school.

RESPECT

Responsibility We expect everyone to take responsibility for their learning and develop 'thinking skills' to become lifelong learners

Equality We embrace equal opportunities for all and show respect and tolerance to others

Success We aspire to achieve our full potential in everything we do

Partnerships We provide the opportunities for local, national and international partnerships and this enriches our experiences

Empowerment We empower all to develop a 'can do' attitude and have confidence in their ability

Care We care about each other and for our environment

Teamwork We work together to be the best we can be

Evaluating the Policy

We will know that the policy is working if:

- All students achieve their full potential and progress of all students who require assistance in accessing the national curriculum is broadly similar to other groups.
- Attainment gaps between groups of students are reduced in particular between those that are on the Pupil Premium Register and those that are not.

- There are equal levels of satisfaction with the school's overall performance from all parents/carers of students.
- A challenging curriculum is provided, that provides breadth and balance, enabling all students to participate and make progress.
- All ground floor classrooms can be accessed by everyone.
- There are no disparities in rates of exclusion across different student groups.
- Everyone within the School community has access to the communication of learning and information so that no-one is disadvantaged.
- The school is respected for its commitment and effectiveness of its Inclusion Policy
- Those within the community feel equally valued and are able to contribute fully to all aspects of the School.

Monitoring

Use of feedback from students with a disability (when the school has students registered as such on roll) and also their parents/carers to assess the impact of policies, procedures, functions and practices and improve these when necessary, overseen by the Director of Inclusion.

The Resources Committee will be responsible for the review of the policy.
